

Tube Straightener

Tube straightener is developed by UTC. This machine can be used on site to straighten the coiled tubes to straight. It is applicable to all coiled tubes with size of 1/2" or below, including the jacketed tubes. By using UTC straightener, the working efficiency could be greatly improved

Size of Tubes	Jacketed Tube	Voltage	Line Speed	Overall Size(mm)	Gross Weight
1/2" or below	Applicable	220V AC	5-14M/min	2200(L)*1320(H)*770(W)	270kg
